eco20	200					45.000,00 €	40.000,00 €	Thinning

Teak minimum 1 Ecobatch

Thinning the minimum order is 5 Ecobatches

* **Thinning:** Selective felling. Healthy thinning after 5 years for trees that are not growing properly; after 8-9 years 25% is removed to favour growth and thickness; after 12-13 years 16% is removed for the rest to increase in diameter. With this product, clients will be entitled to 90% of thinning performed after 8 and 12 years approximately.
